Welcome to Webinar

We will start at 13:00

Agenda

Introduction

- **Giacomo Somma**, Manager Innovation & Deployment, ERTICO

The case of Verona

- **Bruno Pezzuto**, Head Communications and Telematics Systems, City of Verona
- **Carlo Di Taranto**, Head of Sales, Swarco Mizar

The case of Copenhagen

- **Bahar Namaki Araghi**, ITS Project Manager, City of Copenhagen
- **Paul van Koningsbruggen**, Business Developer, Technolution
- **Nuno Rodrigues**, Business Development Manager, Dynniq

Closing

- **Giacomo Somma**, Manager Innovation & Deployment, ERTICO

Compass4D initiative 2016

Compass4D strategy (2013-2015): implement & pilot 3 C-ITS services for deployment in 7 European cities

➢ Successful deployment and after-project life of piloted C-ITS services by

   ➢ Ensuring **after-project** life in seven pilot cities

   ➢ Exploring **up-scaling** possibilities in pilot cities

   ➢ Enlarging the deployment base of **cities** (from a reference group of cities)

   ➢ Enlarging the deployment base of **users groups** (public awareness & user acceptance)

➢ Globally harmonise specifications, support international cooperation and standardization

   ➢ Enlarging the deployment base of interoperable solutions by **vendors**

➢ **Main question**: is the market ready to deploy standardised, interoperable products & services as of 2016?

ERTICO
ITS EUROPE

Compass4D strategy (2013-2015): implement & pilot 3 C-ITS services for deployment in 7 European cities

Objective:

- Deploying C-ITS services for road users to increase *road safety* and *energy efficiency*

C-ITS services:

- ➢ Energy Efficient Intersection Service (EEIS)
- ➢ Road Hazard Warning (RHW)
- ➢ Red Light Violation Warning (RLVW)

Beyond the EU-funded project:

- ➢ **50** public & private stakeholders are continuing the work in 2016 to move from pilot to large-scale deployment for a self-sustained market

European cities:

Compass4D strategy (2016): move from pilot to large scale deployment of C-ITS for self-sustained market

- Public-private partners in all <u>7 + 2</u> cities **committed** to Compass4D continuation in **2016**:

  - To address remaining issues with **standards** & **interoperability**

  - To develop or adapt **use cases** with necessary updates / upgrades

  - To **exchange** knowledge, experiences and best practices

  - To organise **visits & showcases** in Compass4D Deployment Sites
