

# Future Intelligent Transport Systems Strategy

Traffic Scotland National Control Centre  
Queensferry, EH30 9QU

28<sup>th</sup> March 2018

Dear Colleague,

You may be aware that during Roads Expo Scotland 2017, Transport Scotland published our Future Intelligent Transportation Strategy.

This ITS Strategy was developed to provide a strategic framework to support our current and future activities in ITS across Scotland's trunk road and motorway network.

The aim is to put the needs of our customers at the heart of what we do. This customer focus will be paramount in helping us to take strategic decisions on where to prioritise resources, what systems and services we need to provide, maintain and develop, what new technologies and innovations we need to invest in and develop, and tell us when it is right to move away from existing or obsolete ITS infrastructure and services.

We would like to invite you to join us in our Contact and Education Centre/Traffic Scotland National Control Centre in South Queensferry where we will present our ITS Strategy to you. We will look at the Scottish context behind it and discuss each of the main themes to determine with your help as industry experts what opportunities there are to make a difference to the people of Scotland.

Please find below the link to the strategy itself.

## Future Intelligent Transport Systems Strategy

### Traffic Scotland National Control Centre Queensferry, EH30 9QU

28<sup>th</sup> March 2018

#### **By Car:**

At the Ferry Muir roundabout exit to Ferry Muir Road. There is a Shell Petrol Station on the left, take the next left into Ferrymuir Gait and follow the road till it ends. The Control Centre is on the right.

#### **Public Transport:**

Dalmeny Train Station is 1 mile from the TSNCC and an approximate 15 to 20 min walk.

For more details of travelling by public transport see Traveline Scotland's website for details of how to get there: <http://www.travelinescotland.com>

#### **Nearest airports**

Edinburgh Airport is an approximate 20 minutes drive away from the centre.

#### **Car Parking**

There is visitor and staff car parking in front of the building.
