

ERTICO EXPLORES ITS

A series of innovative workshops

ERTICO ROOM | Ground floor, EVOLUON

TUESDAY
4th JUNE

A Vision for Transport & Mobility – Moving forward

🕒 15.30 - 17.00

This is a brainstorming workshop co-organised by ERTICO and the European Commission, DG MOVE for the second year. This workshop will focus on how thanks to innovative concepts, schemes and technologies mobility might evolve in the future. It will also consider what our options for transport and mobility will look like in 10 years from now with regards to freight, traffic management, clean or urban mobility, digital infrastructure and other aspects of mobility. The 3-minute visionary presentations of the invited speakers will be followed by an interactive discussion with the audience which will look at how we as users and citizens will move from A to B in the future and the ways in which we can make our society a better, safer, more environmentally friendly place to live in. This workshop hopes to provoke an 'out of the box' discussion so an open mind is very welcome. Come armed with ideas!
