

EUROPEAN COMMISSION  
DIRECTORATE-GENERAL FOR RESEARCH & INNOVATION

Directorate D - Clean Planet  
The Director

**Subject: Request for contribution in providing information for the study on exploring the possible employment implications of Connected and Automated Driving (PP-06921-2018)**

Dear Madam / Sir,

The Directorate-General for Research & Innovation is conducting a study on exploring the possible employment implications of Connected and Automated Driving (CAD). The study was launched in June 2019 under Horizon 2020 (SC4-Smart, Green and Integrated Transport) with a duration of 16 months. The contract was awarded to a consortium comprising ECORYS Nederland B.V., M-Five GmbH, VTT Oy, TRT S.r.l., SEURECO SARL, ERTICO, IRU and UITP.

The study aims at:

- The assessment of the short, mid and long-term impacts of CAD on employment, jobs, skills, work patterns and business models;
- The proposition of policy pathways to mitigate the negative impacts and maximize the positive ones.

In this context, I would like to invite you to cooperate with the consortium, acting as Processor of the Directorate-General for Research & Innovation (the Controller), and provide relevant data, information and experience, which are essential for the success of the study.

Please be informed that Regulation (EC)2018/1725 (on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of data) applies for the collection and processing of data in the context of the specific study. All detailed information on the processing of your personal data is provided in the enclosed privacy statement.

If you require further information, please contact: Nikolaos Gavanas, Ecological and Social Transitions Unit, Directorate General for Research & Innovation (e-mail: [nikolaos.gavanas@ec.europa.eu](mailto:nikolaos.gavanas@ec.europa.eu)).

Thank you in advance for your contribution.

Yours sincerely,

Clara de la TORRE  
(e-signed)
