TM 2.0 and MaaS Alliance Workshop on Mobility Network Management

18th of October from 10:00 to 11:30 am

Register here on GoToWebinar to participate online

What is Mobility Network Management (MNM) and how does it work?
What do the TM 2.0 and MaaS Alliance communities prioritize on and how do they position themselves?
What are the challenges faced by stakeholders in multimodal routing?
Experts from the two communities will exchange views on the MNM, that has originated from the work of TM 2.0 on interactive traffic management and its principles of *co-opetition* and *dialogue* among the traffic stakeholders and which has found fertile ground in the MaaS community of mobility stakeholders.

Participants:

- Dr Johanna Tzanidaki, Chief Innovation Officer, ERTICO/TM 2.0 co-Chair
- Roelof Hellemans, MaaS Alliance Secretary General
- Cassandre de Froidmont, TM 2.0 Coordinator
- Iuliia Storykova, MaaS Alliance Coordinator
- Coen Bresser, Senior Manager at ERTICO
